The following information supplements and updates the information contained in the Company's preliminary prospectus dated June 5, 2020 that is included in Amendment No. 1. This free writing prospectus reflects the following amendments that were made to Amendment No. 1. All references to page numbers are to page numbers in Amendment No. 1.

The following paragraph is added as the first paragraph under the section headed "Recent Development" on page 5:

We expect our total revenues for May 2020 to be lower than those in April 2020, primarily due to a significant decrease in our revenues generated from in-hospital business. The decrease was mainly due to the processing in April of backlog testing cumulated in the first quarter of 2020 due to the COVID-19 outbreak, as well as the monthly fluctuation of hospital demands in any given quarter.

The following paragraph is added as the fifth paragraph under the risk factor headed "If we cannot maintain or develop relationships with hospitals and physicians, our results of operations and prospects could be adversely affected." on page 18:

Furthermore, depending on our partner hospitals' clinical needs and budgets for cancer therapy selection products and services, our revenues from in-hospital business have fluctuated, and may continue to fluctuate from quarter to quarter.
